 • Take a look at this Durango son, herd bull prospect with style, correctness,  
 muscle shape, conservative markings along with a pedigree that can be used in  
 any cow herd without concern. With a BW EPD of 2.5 and CE of 3.7 Valentine  
 should work really well on heifers. Z214 is out of a Grazer daughter that sports  
 a beautiful udder and has become one of our best brood cows after calving at  
 23 months and raising this stout bull calf. Actual BW 72 #. Halter broke.

 • Y512 is sired by our Investment son. This dark red, long bodied, structurally  
 sound heifer should mature into a wonderful brood cow. Her maternal sister is  
 one of our most productive cows and has several heifers in our herd so we are  
 able to let this one go.  
 • Pasture exposed to BOYD MATERNAL EDGE 1049 from Nov. 28, 2012 to  
 Feb. 20, 2013. Y512 was held open to breed for a fall calf. The Durango 44U  
 son she is bred to has a 0.4 BW EPD.
